Cybersecurity graduate with a Security+ certification and hands-on experience in threat detection, SIEM tools, and scripting. Seeking an entry-level SOC Analyst or Cybersecurity Specialist role to apply practical skills, further develop my expertise, and contribute to a proactive security team. Open to relocation.

EDUCATION

Old Dominion University

Bachelor of Science in Cybersecurity

Norfolk, VA

September 2022 - May 2025

Tidewater Community College

Associate of Science in Computer Science

Virginia Beach, VA

January 2021 - May 2022

CERTIFICATIONS AND SKILLS

- CompTIA Security+ (SYO-701)
- Microsoft Office Specialist (MOS) Master
- ExCPT Certified Pharmacy Technician
- Cyber defense principles, log analysis, system hardening
- Threat intelligence, incident response process, SIEM tools (Splunk)
- VMware, Wireshark, Nessus, nmap, Metasploit, Git
- Python, C#, SQL, HTML, CSS, JavaScript
- Linux, Windows 10/11, Windows Server, AWS, GCP, Microsoft Azure

PROJECTS

Cipher Solver

Python Cryptanalysis Tool

April 2024

Designed and developed a Python tool to automatically decrypt classical ciphers (Caesar, Affine, Atbash, Rail-fence, Vigenère) using brute-force and known-plaintext attacks; implemented scoring logic to rank outputs based on English language similarity using a custom wordlist.

- Built modular functions for cipher decryption and cryptographic math (modular inverse, GCD).
- Automated ranking of 50+ brute-force attempts per cipher using frequency and dictionary analysis.
- Output top decryption candidates with scoring and key details for each cipher.

Mini SIEM Detection Lab

Attack monitoring using Splunk

July 2025

Built a home lab to simulate brute-force attacks against a Windows host; configured Splunk to ingest event logs and created correlation rules to detect excessive failed login attempts (Event ID 4625), triggering real-time alerts.

WORK EXPERIENCE

Walgreens

Certified Pharmacy Technician (CPhT)

Virginia Beach, VA

November 2020 - March 2025

- Certified by the National Board of Pharmacy to manage medication dispensing with strict adherence to HIPAA and regulatory compliance.
- Maintained accurate records and ensured patient safety through precise calculations and attention to detail.
- Demonstrated reliability, confidentiality, and excellent customer service in a fast-paced environment.

D&B Properties

Intern Tech Consultant

Chesapeake, VA

September 2019 - June 2020

- Assisted with network file storage setup, VPN configuration, and system troubleshooting.
- Provided technical support and maintained access controls under mentor supervision.
- Contributed to internal documentation and asset tracking for IT resources.
